Certified Workplace Medical Plan

Certified Workplace Medical Plan

Your employer has chosen a Certified Workplace Medical Plan (CWMP) utilizing the First Health Network to assist in controlling workers' compensation costs while maintaining quality medical care standards.

The health care providers included in this directory have been selected based on specific credentialing criteria. All providers are required to practice under licensing, certification and credentialing requirements of applicable laws, rules and professional standards as well as Coventry internal standards. Providers are subject to ongoing quality assessment which includes, but is not limited to, investigation of any disciplinary actions, review of clinical management, billing performance, an evaluation of quality of service and billing-related complaints regarding participating providers.

As part of the CWMP, Utilization Management Services will be provided. An injured worker's instruction sheet provided to you by your employer states the requirements for physicians to initiate review. This assessment will help you receive care that is medically necessary and provided in the proper setting.

To help your doctor initiate this review, please make sure your doctor has the following information available:

- name and social security number of injured worker
- injured worker's address, phone number, date of birth, and claim number if available
- physician's name, address, phone number
- hospital's name, address, phone number
- date of admission or start of treatment

If you have further questions about the CWMP or the review process, please contact your employer.
