

Death Benefits - For deaths occurring January 1, 1996 through October 31, 1996

Weekly death benefits for beneficiaries are computed as percentages of the deceased's average weekly wage, which shall be taken as not more than the State's Average Weekly Wage. The maximum weekly income benefits payable to all beneficiaries shall not exceed the weekly amount the deceased would have received for permanent total disability (PTD). The PTD rate is computed at 70% of the deceased's average weekly wage, up to a maximum of \$409, which is the State's Average Weekly Wage.
