

State of Oklahoma

Workers' Compensation Court

Schedule of Medical and Hospital Fees

Adopted December 26, 2007

Effective January 1, 2008

Updated March 10, 2008

**Marcia Davis
Administrator**

NOTICE

The five character codes included in the Schedule of Medical Fees are obtained from *Current Procedural Terminology*, (CPT®), copyright 2006 by the American Medical Association (AMA). CPT is developed by the AMA as a listing of descriptive terms and five-character identifying codes and modifiers for reporting medical services and procedures performed by physicians.

The responsibility for the content of the Schedule of Medical and Hospital Fees is with the State of Oklahoma Workers' Compensation Court and no endorsement by the AMA is intended or implied. The AMA disclaims any responsibility for any consequences or liability attributable or related to any use, nonuse or interpretation of information contained in the Schedule of Medical and Hospital Fees. Fee schedules, relative value units, conversion factors and/or related components are not assigned by the AMA, are not part of CPT, and the AMA is not recommending their use. The AMA assumes no liability for data contained or not contained herein. Any use of CPT outside the Schedule of Medical and Hospital Fees should refer to the most current *Current Procedural Terminology* which contains the complete and most current listing of CPT codes and descriptive terms. Applicable FARS/DFARS apply.

CPT is a registered trademark of the American Medical Association.

FOREWORD

The Schedule of Medical and Hospital Fees outlines **maximum** reimbursement levels for health care providers, including hospitals and ambulatory surgical centers, rendering health care services to injured employees as provided in the Workers' Compensation Act, 85 O.S., Section 1 et seq. It applies to all health care services rendered after December 31, 2007 to employees with compensable injuries, regardless of the employee's date of injury. The Schedule of Medical and Hospital Fees does not apply to:

- (1) health care services performed under a certified workplace medical plan provided for in 85 O.S., Section 14.3;
- (2) health care services performed under a written contract between a health care provider and an employer or insurance carrier entered into pursuant to 85 O.S., Section 14(F);
- (3) health care services for which voluntary payments in excess of the reimbursement levels of the Schedule are made by a self-insured employer or an insurance carrier; or
- (4) disability evaluations provided as medical-legal evidence and performed by independent medical examiners appointed by the Workers' Compensation Court as provided in 85 O.S., Section 17. Reimbursement of Court-appointed independent medical examiners is governed by Workers' Compensation Court Rule 44.

This Schedule was adopted on December 26, 2007 as provided in 85 O.S., Section 14.

The Schedule of Medical Fees is based on the most current Relative Value Units (RVU) produced by the Centers for Medicare and Medicaid Services (CMS) for the Medicare Physician Fee Schedule. The in-patient hospital services portion of the Schedule utilizes the Medical Severity Diagnosis Related Groups (MS-DRG) system as the primary coding system for health care services rendered. The Schedule also adopts by reference the Centers for Medicare and Medicaid Services, CMS Common Procedures Coding System (HCPCS) for the coding of certain supplies and materials.

INTRODUCTION

1. **PROCEDURE CODES:** For purposes of the Schedule of Medical Fees, health care services and procedures shall be described in accordance with current procedural terminology codes and descriptions listed in the *Physicians' Current Procedural Terminology*, (CPT®), copyright 2006 by the American Medical Association.

The accompanying instructions and ground rules of the Schedule of Medical Fees explain the application of these procedure descriptors and values in medical practice. All matters not specifically governed by the provisions of the Schedule of Medical Fees shall be subject to the provisions of CPT 2007. If the provisions of the Schedule of Medical Fees conflict with the provisions of CPT 2007, the provisions of the Schedule of Medical Fees shall govern.

The five character codes included in the Schedule of Medical Fees are obtained from *Current Procedural Terminology*, (CPT®), copyright 2006 by the American Medical Association (AMA). CPT is developed by the AMA as a listing of descriptive terms and five-character identifying codes and modifiers for reporting medical services and procedures performed by physicians.

The responsibility for the content of the Schedule of Medical and Hospital Fees is with the State of Oklahoma Workers' Compensation Court and no endorsement by the AMA is intended or implied. The AMA disclaims any responsibility for any consequences or liability attributable or related to any use, nonuse or interpretation of information contained in the Schedule of Medical and Hospital Fees. Fee schedules, relative value units, conversion factors and/or related components are not assigned by the AMA, are not part of CPT, and the AMA is not recommending their use. The AMA assumes no liability for data contained or not contained herein. Any use of CPT outside the Schedule of Medical and Hospital Fees should refer to the most current *Current Procedural Terminology* which contains the complete and most current listing of CPT codes and descriptive terms. Applicable FARS/DFARS apply.

CPT is a registered trademark of the American Medical Association.

Allowables found in the right hand column of the Schedule of Medical and Hospital Fees were developed by the Administrator of the Oklahoma Workers' Compensation Court pursuant to 85 O.S., Section 14.

2. **FORMAT:** The Oklahoma Schedule of Medical and Hospital Fees consists of eleven sections; Evaluation and Management, Anesthesia, Surgery, Radiology, Pathology, Medicine, Physical Medicine, Durable Medical Equipment and Supplies, Pharmaceutical Services, Ambulatory Surgical Center Services, and In-Patient Hospital Services. The Schedule is divided into these sections for structural purposes only. Providers of medical services and/or suppliers are to use the section(s) which contain the procedures they perform, or the services they render.
3. **GROUND RULES:** Introductory material, known as Ground Rules, follows the Introduction and precedes the separate sections of this Schedule. The Ground Rules contain the necessary general information, instructions, and general rules with which the user needs to become acquainted before undertaking the use of this Schedule. Familiarity with these general rules, which may include definitions, references, prohibitions, and directions for proper use, is necessary for all who use this Schedule. It cannot be emphasized too strongly that these rules need to be read before this Schedule is used.
4. **HOW TO INTERPRET THE FEE SCHEDULE DATA:** Each section of the Schedule is divided into columns. The columns vary by section. Following is a description of the various columns:
 - a. **CPT CODE (CURRENT PROCEDURAL TERMINOLOGY CODE):** The CPT Code column lists the American Medical Association's (AMA) CPT code. CPT 2007 is used by arrangement with the AMA.

- b. **MS-DRG CODE (MEDICAL SEVERITY DIAGNOSIS RELATED GROUPS CODE):** The MS-DRG column lists the Centers for Medicare and Medicaid Services (CMS) Medical Severity Diagnosis Related Groups code as updated through August 22, 2007.
- c. **ANES:** The ANES column shows base units for anesthesia services provided. These units are used for reimbursement when an anesthesiologist or Certified Registered Nurse Anesthetist (CRNA) provides anesthesia during a surgical procedure and bills using a surgical CPT code or when the operating surgeon provides regional or general anesthesia for surgery.
- d. **FUD (FOLLOW-UP DAYS):** The FUD column lists the number of follow-up days included in a surgical procedure's global allowable. In counting follow-up days, day one is the day of surgery, not the discharge day. The follow-up days in this Schedule are derived from the Centers for Medicare and Medicaid Services (CMS).
- e. **PC (PROFESSIONAL COMPONENT):** The PC column shows the maximum allowable reimbursement amount for that portion of the procedure that is professional. The total maximum allowable reimbursed should never be more than the professional and technical components combined. In the Medicine Section, if there is no allowable noted in the PC column, the MAR listed is for the professional component only and there is no technical component for the code.
- f. **TC (TECHNICAL COMPONENT):** The TC column shows the maximum allowable reimbursement amount for that portion of the procedure that is technical. The total maximum allowable reimbursed should never be more than the professional and technical components combined. In the Medicine Section, if no allowable is noted in the PC column, the MAR listed is for the professional component only and there is no technical component for the code.
- g. **MAR (MAXIMUM ALLOWABLE REIMBURSEMENT):** An MAR is listed for each code excluding Anesthesia codes, HCPCS codes and MS-DRG codes. The MAR column lists the maximum allowable reimbursement for a particular service or procedure performed under a CPT code. Anesthesia codes shall be reimbursed as provided in the Anesthesia Ground Rules. HCPCS codes shall be reimbursed as provided in the Durable Medical Equipment and Supplies Ground Rules. MS-DRG codes shall be reimbursed as provided in the In-Patient Hospital Services Ground Rules.
- h. **BR (BY REPORT):** Some services and procedures do not have a maximum allowable reimbursement amount because they are too variable or new. These "by report" services and procedures are identified with a "BR". Reimbursement and billing for "by report" services and procedures are governed by the "by report" ground rule for the appropriate section.

General Ground Rules

GENERAL GROUND RULES

General Information and Instructions

1. REPRODUCTION OF MEDICAL RECORDS, INCLUDING X-RAYS AND OTHER PHOTOGRAPHS AND IMAGES: Under the provisions of 76 O.S., Section 19, providers (physicians, hospitals, medical professionals and institutions) may charge patients, former patients or the legal representative of any such person not more than One Dollar (\$1.00) for the first page and fifty cents (\$0.50) for each subsequent page for copies of medical records other than any x-ray or other photograph or image. The cost of each x-ray or other photograph or image shall not exceed Five Dollars (\$5.00) or the actual cost of reproduction, whichever is less. Medical providers may charge a patient for the actual cost of mailing the patient's requested medical records, but may not charge an additional fee for searching, retrieving, reviewing or preparing such records for copying.
2. MEDICAL TESTIMONY, INCLUDING DEPOSITIONS:
 - a. REIMBURSEMENT: Reimbursement for medical testimony given in person or by deposition shall be in accordance with the physician's usual and customary charges, not to exceed Two Hundred Dollars (\$200.00) per hour or any portion thereof, plus an allowance of Fifty Dollars (\$50.00) for 15 minute increments thereafter.
 - b. PREPARATION TIME: Preparation time for medical testimony, including depositions, shall be reimbursed at the examiner's usual and customary charge, not to exceed One Hundred Dollars (\$100.00).
 - c. CANCELLATION FEE: A Two Hundred Dollar (\$200.00) charge is allowable whenever a deposition or scheduled testimony is canceled by the employer or employee within three working days prior to the scheduled start of the deposition or scheduled testimony.
 - d. ADVANCE PAYMENT: A physician may request not more than Two Hundred Dollars (\$200.00) in advance in order to schedule a deposition. The advance payment shall be applied against amounts owed for testimony fees.
 - e. BILLING: All bills submitted for payment shall be itemized, including the number of hours required to perform the services, and shall refer to this Ground Rule and CPT® Code 99075 for proper reimbursement.

This ground rule does **not** apply to reimbursement of a Court-appointed independent medical examiner for medical testimony given in person or by deposition. Reimbursement of Court-appointed independent medical examiners is governed by Workers' Compensation Court Rule 44.

3. DIAGNOSTIC TESTS: Pursuant to Title 85 O.S., Section 14, diagnostic tests shall not be repeated sooner than six (6) months from the date of the test unless agreed to by the parties or ordered by the Workers' Compensation Court.

General Ground Rules

4. WORK-RELATED OR MEDICAL DISABILITY EVALUATION SERVICES PERFORMED AT THE REQUEST OF A PARTY AND WHICH INCLUDE A CALCULATION OF IMPAIRMENT:
- a. This Ground Rule applies to work-related or medical disability examinations described in CPT Code 99455 that are performed by the treating physician, at the request of a party, and to work-related or medical disability examinations described in CPT Code 99456 that are performed by a physician other than the treating physician, at the request of a party. CPT Codes 99455 and 99456 require, among other things, a calculation of impairment.
 - b. This Ground Rule does **not** apply to:
 - (1) disability evaluations provided as medical-legal evidence and performed by independent medical examiners appointed by the Workers' Compensation Court under 85 O.S., Section 17. Reimbursement of Court-appointed independent medical examiners is governed by Workers' Compensation Court Rule 44; or
 - (2) health care services (including work-related or medical disability services) performed under a written contract between a health care provider and an employer or insurance carrier entered into pursuant to 85 O.S., Section 14(F).
 - c. Services subject to this Ground Rule shall be reimbursed as follows:
 - (1) **REIMBURSEMENT:** The review of records and information, the performance of any necessary examinations, and the preparation of the written report shall be billed and reimbursed at the physician's usual and customary rate, not to exceed Two Hundred Dollars (\$200.00) per hour, up to a maximum of three (3) hours. In a complex case, an additional fee of up to Two Hundred Dollars (\$200.00) may be allowed.
 - (2) **DIAGNOSTIC TESTS:** Payment for any required diagnostic tests shall be in accordance with this Schedule of Medical and Hospital Fees.
 - (3) **CANCELLATION AND NO-SHOW FEE:** If an injured worker fails to appear for a scheduled examination, or if an examination is canceled by the employee or the employer within forty-eight (48) hours of the scheduled time, a Two Hundred Dollar (\$200.00) fee is allowable for such failure to appear or cancellation.
 - (4) **BILLING:** All bills submitted for payment shall be itemized, including the number of hours required to perform the services, and shall refer to this Ground Rule and CPT Code 99455 or 99456, as appropriate, for proper reimbursement.

General Ground Rules

5. BILLING PROCEDURES: If a charge is billed using a procedure code not found in this fee schedule, but found in the *Physicians' Current Procedural Terminology*, by the American Medical Association (CPT) book, reimbursement should be made. Relativity should be maintained by using a fee schedule code and value as a reference.

Medical providers may not bill more than their usual and customary charge for any procedure. If a medical provider's total aggregate charges per billing do not exceed the total aggregate allowed by the fee schedule for such charges, **after application of all appropriate ground rules and other instructions per the fee schedule**, then the medical provider's total aggregate charges should be reimbursed in full. For example,

CPT Code	Provider's Charges	Maximum Allowable Per Fee Schedule
99203	\$75.00	\$104.75
95860-26	<u>\$100.00</u>	<u>\$ 87.42</u>
	\$175.00	\$192.17

The provider should be paid \$175.00 since the total billed charges are less than the total allowable per the fee schedule.

This ground rule does not apply to ambulatory surgical center services, in-patient hospital services, or implantables.

6. MODIFIERS: Modifiers augment CPT codes to more accurately describe the circumstances of services provided. When applicable, the circumstances should be identified by a modifier code; a two-digit number, alpha, or alpha-numeric combination placed after the usual procedure code, separated by a hyphen. If more than one modifier is needed, place the multiple modifiers code (-99) after the procedure code to indicate that two or more modifiers will follow.
7. EXPLANATION OF BENEFITS: A payor must provide a health care provider with a written explanation of benefits (EOB) whenever a coded service is denied or not reimbursed in full as billed. The EOB must identify each coded service that was denied or not reimbursed in full as billed; the amount reimbursed, if applicable; the reason for each denial or reduced reimbursement (including the specific general instruction, ground rule, etc. of the Schedule of Medical and Hospital Fees serving as the basis for the denial or reduction); and the procedure code, if any, for which reimbursement was made when different from the code billed.
8. DISPUTES REGARDING PAYMENT FOR HEALTH CARE SERVICES: Disputes regarding payment for health care services rendered as provided in the Workers' Compensation Act may be addressed using informal dispute resolution procedures available through the Workers' Compensation Court. The procedures include the Form 18 and Form 19 processes, mediation, and the judicial settlement conference process. A description of each follows.

General Ground Rules

- a. FORM 18 (ADMINISTRATIVE REVIEW OF DISPUTED CHARGES): Rule 1 of the Rules of the Administrator of the Workers' Compensation Court governs the review of payment disputes involving conflicting interpretations of the Schedule of Medical and Hospital Fees. A request for administrative review of disputed medical charges under Rule 1 may be made by the filing of a Form 18, Request for Administrative Review of Medical Charges. The Administrator may review the disputed charges only to determine if the entire bill submitted is reimbursed appropriately under the Schedule of Medical and Hospital Fees. The Administrator may not determine if the treatment rendered was necessary, nor may the Administrator resolve other matters requiring a judicial determination for resolution. If either party is aggrieved by the Administrator's order, an appeal of the decision may be made to a trial judge of the Workers' Compensation Court by filing a Form 9 (Motion to Set for Trial) and a Form 19, Part II., Notice of Appeal of Administrative Order. The appeal must be filed within ten (10) days of the file-stamped date of the Administrator's order.
- b. FORM 19 (MAY INVOLVE JUDICIAL RESOLUTION OF DISPUTED CHARGES): Court Rule 50 governs the process for health care providers seeking to recover charges for health care services, medicines or supplies provided to an injured employee. Health care providers may file a Form 19, Part I., Request For Payment Of Charges For Health Or Rehabilitation Services, if they have not received payment within 60 days from the date the charges were submitted to the employer or insurance carrier, or if the employer or insurance carrier denies liability on a ground requiring judicial resolution. Such grounds include: (1) length of treatment; (2) necessity of treatment; (3) unauthorized physician; (4) denial of compensability of the claimant's claim; and (5) any other issues requiring a judicial determination. **The Workers' Compensation Court will not set the Form 19 for hearing unless a Form 9 (Motion to Set for Trial) also is filed.**
- c. MEDIATION: Mediation may be used to address certain workers' compensation disputes (including disputes regarding payment for medical and rehabilitative services). Mediation is the process of resolving disputes with the assistance of a mediator, outside of a formal court proceeding. The purpose of mediation is to identify issues, clarify misunderstandings, explore solutions, and negotiate settlement. It is an alternative to litigation. For information, call (405) 522-8760 or in-state toll free at (800) 522-8210. See also, Workers' Compensation Court Rule 52.
- d. JUDICIAL SETTLEMENT CONFERENCE: Informal dispute resolution of disputes regarding payment for health care services rendered to an injured worker may be addressed through in-person or telephone settlement conferences conducted by a judge other than the assigned trial judge in a case filed with the Workers' Compensation Court. A judicial settlement conference may be requested by a party or may be set by the Court upon its own motion. The purpose of the judicial settlement conference is to permit an informal discussion between the parties, attorneys, and the settlement judge on every aspect of the case bearing on its settlement value in an effort to resolve the matter before trial. The conference can

General Ground Rules

come before or after a formal hearing request (Motion to Set for Trial). For more information, see 85 O.S., Section 3.4 and Workers' Compensation Court Rule 53.

Failure of an employer or insurance carrier to offer payment of medical charges within the 60-day period as required by the Workers' Compensation Court's rules may limit the applicability of the Schedule of Medical and Hospital Fees.

Under 85 O.S., Section 14(F), the right to recover charges for every type of medical care for compensable workers' compensation injuries lies solely with the Oklahoma Workers' Compensation Court.

Additional information concerning the resolution of payment disputes may be obtained from the Medical Services Division of the Workers' Compensation Court, 1915 N. Stiles Avenue, Oklahoma City, Oklahoma 73105-4918, (405) 522-8794.

9. MEDICAL TREATMENT GUIDELINES:

- a. **REQUIRED USE:** Compliance with treatment guidelines adopted as provided in Title 85 of the Oklahoma Statutes shall be mandatory. When an accidental injury or occupational disease falls within the purview of the treatment guidelines, providers shall use the appropriate medical treatment guidelines then in effect to care for and treat the injured worker. Providers are expected to stay current with guideline changes and adoptions. If the treatment guidelines conflict with ground rules in the Schedule of Medical and Hospital Fees, the treatment guidelines shall govern. Pursuant to 85 O.S., Section 14.3, Certified Workplace Medical Plans may use medical treatment guidelines and protocols substantially similar to those adopted as provided in 85 O.S., Section 201.1 by the Physician Advisory Committee and the Court Administrator.
- b. **PURPOSE AND APPLICATION OF GUIDELINES:** The objective of the Medical Treatment Guidelines is to provide standards for prompt, reasonable and appropriate treatment for workplace injuries and to expedite optimum recovery and return to work, while containing medical costs in the workers' compensation system. The guidelines do not affect any determination of liability for an injury under the Oklahoma Workers' Compensation Act, 85 O.S., Section 1, et seq., and are not intended to expand or restrict a health care provider's scope of practice under any other statutes.
- c. **STATUS OF GUIDELINES:** For information on the status of medical treatment guidelines, call the Court's Medical Services Division at (405) 522-8794 or in-state toll free at (800) 522-8210, or check the Court's website at www.owcc.state.ok.us.

10. **CASE MANAGEMENT:** Under 85 O.S., Section 3(3) case management is the ongoing coordination by a case manager of health care services provided to an injured or disabled worker. It is a utilization control designed to promote the timely delivery of quality, cost-effective and medically appropriate health care services to an injured worker to assist the worker in reaching maximum medical improvement, and to promote prompt return to work as

General Ground Rules

appropriate. Case management may be provided by agreement of the parties, by an insurer or certified workplace medical plan, or pursuant to a Court order requested by any party or on the Court's own motion whenever the employee has more than three (3) lost workdays in succession and the insurer does not provide case management. If case management is used, it should be governed by the Case Management Guidelines recommended by the Physician Advisory Committee (85 O.S., Section 201.1) and adopted by the Court Administrator as provided by law. The Guidelines are available on the Workers' Compensation Court's website at www.owcc.state.ok.us. Case types or situations which may benefit most from case management services include:

- a. Catastrophic injuries including burns, amputations, crush injuries, head injuries, spinal cord injuries (SCI) and complex regional pain syndrome (RSD) cases;
 - b. When noncompliance issues with the medical treatment plan have been identified;
 - c. When multiple medical providers or frequent changes in physician have occurred;
 - d. When problems with certain issues would be more appropriately evaluated in person, which may include, but are not limited to, language barriers, transportation obstacles and socio-economic dynamics;
 - e. In the event of re-injury to the same body part;
 - f. When the injured worker, physician, payor, employer or attorney request medical case management;
 - g. When the treatment plan exceeds usual and customary parameters as set forth by law, medical treatment guidelines recommended by the Physician Advisory Committee (85 O.S., Section 201.1) and adopted by the Court Administrator, or nationally recognized treatment guidelines;
 - h. In cases where pre-existing medical conditions could impact the extent or duration of rehabilitation;
 - i. Compromised communication;
 - j. When assistance is needed with return-to-work issues.
11. **CONFLICTS BETWEEN GROUND RULES AND STATUTE:** Various statutory provisions are recited in ground rules of the Schedule of Medical and Hospital Fees for informational purposes only. If a ground rule conflicts with an applicable statute, the statute shall govern.

Evaluation and Management Ground Rules

EVALUATION AND MANAGEMENT GROUND RULES

General Information and Instructions

1. GENERAL: Visits, examinations, consultations, and similar services as listed in this section reflect the wide variations in time and skill required in the diagnosis and treatment of illness or injury. Documentation for each aspect of the service performed should be included in the patient record to substantiate the level of service. The listed values for each code group apply only when these services are performed by or under the responsible supervision of a physician.
2. BY REPORT ("BR") ITEMS: "BR" in the maximum allowable reimbursement (MAR) column indicates that the value of this service is to be determined "by report", because the service is too unusual or variable to be assigned a value. For any "by report" code, medical providers should identify a similar service and justify the difference between their charge and the value of the referenced service. Pertinent information concerning the nature, extent and need for the procedure or service, the time, the skill and equipment necessary, etc. is to be furnished. A detailed clinical record is not necessary.
3. CONCURRENT CARE: When more than one physician treats a patient for the same condition during the same period of time, payment is made only to one physician; the one whose specialty is most relevant to the diagnosis.

When the condition of the patient requires the distinct and separate skills of two or more physicians to treat different conditions which do not fall within the scope of other physicians treating the patient at the same time, payment is due each physician who plays an active role in the treatment program. The services rendered by each physician shall be distinct, in different disciplines, identifiable and adequately documented in the records and reports.

4. ALTERNATING PHYSICIANS: When physicians of similar skills alternate in the care of a patient, (e.g., partners, groups or same facility; covering for another physician on weekends or vacation periods) each physician shall bill individually for the services each personally rendered.
5. CONSULTATIONS AND REFERRALS: A **consultation** is a service rendered by a **specialist** at the request of the treating physician or other appropriate source seeking further evaluation and/or an opinion on how to proceed in the management of a patient's illness. Consultations always require a narrative report from the consultant to the treating physician requesting the opinion. A detailed narrative report is required and shall accompany the bill. A reproduction of a form report is not acceptable since the particulars relevant to one individual will not be applicable to another patient. When the consulting specialist assumes responsibility for the continuing care of the patient, any subsequent service rendered by him/her will cease to be a consultation. Subsequent care will be reimbursed according to the actual level of service rendered.

Evaluation and Management Ground Rules

A **referral** is the transfer of a patient to a specialist for diagnosis and, where necessary, treatment of a specific illness or injury, rather than for advice. A referral will be reimbursed according to the actual level of services rendered.

6. **NEW PATIENT:** "New patient" means a patient who is new to the health care provider, group practice, or caregiver and/or whose medical and administrative records need to be established. A patient shall also be considered a new patient if seen for a new injury or disability or when a lapse of three or more years from the most recent prior visit has occurred.
7. **ESTABLISHED PATIENT:** An established patient is one who has received professional services from the physician within the last three years or whose medical and administrative records are available to the physician. In the instance where a physician is covering for or on call for another physician, the patient's encounter will be classified as it would have been by the physician who is not available.
8. **SIGNIFICANT, SEPARATELY IDENTIFIABLE EVALUATION AND MANAGEMENT SERVICE BY THE SAME PHYSICIAN ON THE DAY OF A PROCEDURE:** Evaluation and Management services above and beyond normal pre- and post-operative care associated with a procedure and performed on the same day may be reimbursed. Services of this nature must be substantiated by report. Use modifier -25 to indicate this type of service.
9. **DURABLE MEDICAL EQUIPMENT AND SUPPLIES PROVIDED BY PHYSICIAN:** Durable medical equipment and supplies provided by the physician over and above those usually included in a visit to the physician's office or in other services rendered are governed by the Durable Medical Equipment and Supplies Ground Rules.
10. **UNLISTED SERVICES OR PROCEDURES:** A service or procedure that is not identified by a particular CPT code should be listed under the appropriate "Unlisted Procedure". These procedures often have "99" as the final two digits. Values should be substantiated "by report".
11. **LEVELS AND COMPONENTS OF SERVICE:** Reference should be made to the *Physicians' Current Procedural Terminology*, (CPT® 2007), copyright 2006 by the American Medical Association for information on Levels of Service and Components of Service.

Anesthesia Ground Rules

ANESTHESIA GROUND RULES

General Information and Instructions

1. GENERAL:
 - a. The maximum allowable reimbursement for anesthesia services administered by an Anesthesiologist shall be in an amount calculated per these Ground Rules. The maximum allowable reimbursement for anesthesia services administered by a CRNA, shall not exceed ninety percent (90%) of that amount.
 - b. A base allowable is listed for each anesthesia code. These allowables are to be used only when the anesthesia is personally administered by an Anesthesiologist or Certified Registered Nurse Anesthetist (CRNA) who remains in constant attendance during the procedure, for the sole purpose of rendering such anesthesia service. These allowables include usual pre- and post-operative visits, the administration of the anesthetic and the administration of fluids and/or blood incident to anesthesia or surgery.
 - c. The Anesthesia allowable includes recovery room care. No additional time units are allowed for recovery room observation and monitoring.
2. BILLING: Billing for anesthesia services will include, but not be limited to the procedure code number, time units, amount of charges, provider information and any other information that pertains to the amount charged.
3. UNLISTED SERVICES OR PROCEDURES: A service or procedure that is not identified by a particular CPT® code should be listed under the appropriate "Unlisted Procedure". These procedures often have "99" as the final two digits. Values should be substantiated "by report".
4. BY REPORT ("BR") ITEMS: "BR" in the base allowable column indicates that the value of this service is to be determined "by report". For any "by report" code, medical providers should identify a similar service and justify the difference between their charge and the value of the referenced service. Pertinent information concerning the nature, extent and need for the procedure or service, the time, the skill and equipment necessary, etc. is to be furnished. A detailed clinical record is not necessary.
5. DURABLE MEDICAL EQUIPMENT AND SUPPLIES PROVIDED BY PHYSICIAN: Durable medical equipment and supplies provided by the physician over and above those usually included in a visit to the physician's office or in other services rendered are governed by the Durable Medical Equipment and Supplies Ground Rules.
6. SUPPLEMENTAL SKILLS: When warranted by the necessity of supplemental skills, reimbursement for the services of two or more physicians and/or anesthetists will be allowed. Substantiate by report justifying the need.

Anesthesia Ground Rules

7. **MONITORING SERVICES:** When an anesthesiologist or anesthesiologist is required to participate in and be responsible for monitoring the general care of the patient during a surgical procedure but does not administer anesthesia, these services are charged on the basis of the extent of the services rendered. Payment will be made on the basis of the time units the anesthesiologist or anesthesiologist is in constant attendance for the sole purpose of the monitoring services. Anesthesia values will not be added.
8. **ANESTHESIA ADMINISTERED BY OTHER THAN AN ANESTHESIOLOGIST OR ANESTHETIST:** Anesthesia fees are not payable when local infiltration, digital block or topical anesthesia is administered by the operating surgeon or surgical assistants. Such services are included in the value for the surgical procedure.
9. **ANESTHESIA PHYSICAL STATUS MODIFIERS:** The following physical status modifiers are consistent with the American Society of Anesthesiologists' ranking of patient physical status, and distinguish various levels of complexity of the anesthesia service provided. All anesthesia services are reported by use of the anesthesia five-digit procedure code (00100 - 01999) with the appropriate physical status modifier appended. Under certain circumstances, when another established modifier(s) is appropriate, it should be used in addition to the physical status modifier.

Physical Status Modifiers: Physical Status modifiers are represented by the initial letter "P" followed by a single digit from 1 to 6 defined below:

Physical Status Modifier	Allowable
P1 -- A normal healthy patient.	\$0.00
P2 -- A patient with mild systemic disease.	\$0.00
P3 -- A patient with severe systemic disease.	\$45.00
P4 -- A patient with severe systemic disease that is a constant threat to life.	\$90.00
P5 -- A moribund patient who is not expected to survive without the operation.	\$135.00
P6 -- A declared brain-dead patient whose organs are being removed for donor purposes.	\$0.00

10. **QUALIFYING CIRCUMSTANCES:** More than one qualifying circumstance may be selected. Many anesthesia services are provided under particularly difficult circumstances, depending on factors such as extraordinary condition of patient, notable operative conditions, and/or unusual risk factors. This ground rule includes a list of important qualifying circumstances

Anesthesia Ground Rules

that significantly impact on the character of the anesthesia service provided. These procedures would not be reported alone but would be reported as additional procedure numbers qualifying an anesthesia procedure or service.

CPT® Code	Allowable
99100	\$45.00
99116	\$225.00
99135	\$225.00
99140	\$90.00

An emergency is defined as existing when delay in treatment of the patient would lead to a significant increase in the threat to life or body part.

11. **MONITORING EQUIPMENT:** When a pulse oximeter monitor and a capnography monitor are not provided by the hospital and are owned and operated by the anesthesiologist during general anesthesia exceeding 30 minutes, \$45.00 per monitor may be charged.
12. **CALCULATIONS OF TOTAL ANESTHESIA ALLOWABLES:**

The total Anesthesia allowable is calculated by adding the following:

- a. The Anesthesia Base Allowable listed for the service provided;
- b. The Allowable for the Physical Status Modifier;
- c. The Allowable for Qualifying Circumstances, if appropriate;
- d. The Allowable for Monitoring Equipment, if appropriate; and
- e. The Allowable for time units.

Time units are computed by allowing one unit for each 15 minutes or significant fraction thereof of anesthesia time. Anesthesia time begins when the anesthesiologist or anesthetist starts physically to prepare the patient for the induction of anesthesia in the operating room area (or its equivalent) and ends not more than 15 minutes after service in operating room is concluded and the patient is placed under post-operative supervision.

If the anesthesia time extends beyond two hours, 1.0 units for each 10 minutes or significant fraction thereof is allowed after the first two hours. This does not apply to obstetrical anesthesia for which 15 minute time increments are applicable for the entire duration of the service.

The total time units are multiplied by \$45.00 to determine the allowable for time units.

Actual time of beginning and duration of anesthesia time may require documentation, such as a copy of the anesthesia record in the hospital file.

Anesthesia Ground Rules

Fees when applicable are identical for general, spinal, regional or refrigeration anesthesia. When multiple surgical procedures are performed during the same period of anesthesia, only the greatest allowable of the various surgical procedures will be used. To this allowable are added time units applicable for the entire period of anesthesia time for the multiple procedures performed.

13. MISCELLANEOUS:

- a. For cardiopulmonary resuscitation (separate procedure unrelated to the administration of anesthesia) see CPT code 92950.
- b. Values for office and hospital visits, consultations and other medical services, x-rays, surgery, and laboratory procedures are listed in the sections entitled "Evaluation and Management", "Medicine", "Surgery", "Radiology", and "Pathology". A consultation fee is not payable to an anesthesiologist examining the patient before administering anesthesia to that patient. No additional charge is to be made for routine follow-up care and observation.

Surgery Ground Rules

SURGERY GROUND RULES

General Information and Instructions

1. **PACKAGE OR GLOBAL FEE CONCEPT:** The listed maximum allowable reimbursement (MAR) for all surgical procedures includes the surgery, local infiltration, digital block and/or topical anesthesia when used and the normal follow-up care for the period indicated in days in the follow-up days (FUD) column.

Regional or general anesthesia provided by the operating surgeon can be charged for by using the corresponding Basic Anesthesia Value only. Anesthesia Ground Rule 1(a) governs calculation of the maximum allowable reimbursement (MAR) for such anesthesia services.

Payment is for the procedure coded and described, irrespective of the method(s) or appliance(s) used to perform the procedure. The allowables are applicable to all physicians who perform the listed services.

2. **IMMEDIATE PRE-OPERATIVE VISITS AND OTHER SERVICES BY THE SURGEON:** Under most circumstances, including ordinary referrals, the immediate pre-operative visit in the hospital or elsewhere necessary to examine the patient, complete the hospital records, and initiate the treatment program is included in the listed maximum allowable reimbursement (MAR) for the surgical procedure.
3. **ADDITIONAL CHARGES MAY BE WARRANTED FOR PRE-OPERATIVE SERVICES UNDER THE FOLLOWING CIRCUMSTANCES:**
 - a. when the pre-operative visit is the initial visit (e.g., an emergency) and prolonged detention or evaluation is required to prepare the patient or to establish the need for and type of surgical procedure.
 - b. when the pre-operative visit is an initial consultation.
 - c. when procedures not usually part of the basic surgical procedure (e.g., myelography prior to laminectomy, bronchoscopy prior to chest surgery) are provided during the immediate pre-operative period.
4. **FOLLOW-UP CARE FOR DIAGNOSTIC PROCEDURES (E.G., ENDOSCOPY, INJECTION PROCEDURES FOR RADIOGRAPHY):** includes only that care related to recovery from the diagnostic procedure itself. Care of the condition for which the diagnostic procedure was performed or of other concomitant conditions is not included and may be charged for in accordance with the services rendered.
5. **MULTIPLE OR BILATERAL PROCEDURES:** When multiple procedures, unrelated to the major procedure and adding significant time or complexity are provided at the same operative session, reimbursement will be as provided in this Ground Rule for the procedure

Surgery Ground Rules

with the highest allowance, plus half of the lesser procedure(s), up to a total maximum allowance of twice the highest value.

The same rule applies for bilateral procedures when such are not specifically identified in the schedule.

Multiple related procedures shall not warrant any additional reimbursement except in those areas where separate codes are listed. Related procedures are those without which the principal procedure cannot be adequately performed.

EXAMPLES:

Related Procedures:

- a. Open reduction of a fracture: The excision of a previous scar(s), the incision of fascia(s) and muscle(s), the identification and retraction of nerves, muscles and area structures and the closure of the wound irrespective of type of closure are all related to the principal procedure of the bone repair and merit no additional reimbursement.
- b. Repair of a tendon: The skin incision and linear closure, as well as the identification, incision and retraction of adjacent or overlying structures are related to the principal procedure and merit no additional reimbursement.

Unrelated Procedures:

- a. Multiple lacerations of an area such as the face when such lacerations are not continuous.
- b. Fractures of arm (humerus) and of the forearm (radius and/or ulna) in the same extremity are considered as two (2) distinct areas and when treated by reduction and/or suturing, the unrelated procedures rule applies. If, however, these are treated in an office or out-patient site after the follow-up period(s) expires, they will be considered as related procedures.

For **incidental procedures** (e.g., incidental appendectomy, incidental scar excisions, puncture of ovarian cysts, lysis of adhesions, etc.) an additional reimbursement is not warranted. The closure of an incision or laceration incidental to the repair of deeper structures such as nerves, tendons, etc., does not merit any additional reimbursement irrespective of the method of closure.

When more than one identifiable surgical procedure or service related to the care of the same entity is rendered during the total follow-up period, an additional reimbursement may be warranted. Identify each and reimburse as follows: The major procedure at full value and fifty percent (50%) for the lesser procedure(s) up to a total maximum of twice the greater value (e.g., unsuccessful closed reduction of a fracture followed on a different day by open reduction). Applying traction prior to either planned subsequent closed or open reduction shall not warrant additional reimbursement.

Surgery Ground Rules

6. FOLLOW-UP OR AFTERCARE:
 - a. Follow-up care for therapeutic surgical procedures includes all normal post-operative care. Uncommon or unusual complications, recurrence or the presence of other diseases or injuries requiring significant additional services concurrent with the procedure(s) or during the listed period of follow-up care may warrant additional reimbursement. If such charges are made, explain by report with adequate description.
 - b. When an additional surgical procedure(s) is performed during the stated follow-up period and is related to the previously performed procedure(s) but is not an intrinsic part of the latter, the additional procedure will be paid at fifty percent (50%). In these instances, the follow-up periods will continue concurrently to their normal termination.
 - c. When multiple procedures and/or services are performed concurrently or sequentially within the same operative or treatment setting, the longest follow-up period will apply to all as one item.
7. SEPARATE OR INDEPENDENT PROCEDURES: Certain of the listed procedures are commonly carried out as an integral part of a total service, and as such do not warrant a separate charge. When such a procedure is carried out as a separate procedure not immediately related to other services, the indicated value for "Separate Procedure" is applicable.
8. PRIMARY, SECONDARY OR DELAYED PROCEDURES: A **primary** procedure refers to one that is attempted or performed for the first time, irrespective of the time relationship to the date of injury or the onset of the condition being treated. **Secondary** refers to treatment of a condition that has been specifically treated previously and is being treated subsequently. For example, where a tendon is lacerated and it is elected to close the laceration without suturing the tendon, the first direct repair of the tendon would constitute a delayed but primary repair. In this example, if the first repair is unsuccessful any subsequent repair of the tendon would be a secondary procedure. **Delayed** procedures have the same values as primary procedures.
9. OPERATIVE REPORT AND BILLING: A bill for an operative procedure(s) shall not be deemed properly submitted unless and until an operative report is received by the payer. If performed in a hospital operating site, a copy of the hospital operative report shall be submitted. If in other sites, identify the location as well as submitting an informative description of the surgery performed.
10. BY REPORT ("BR") ITEMS: "BR" in the maximum allowable reimbursement (MAR) column indicates that the value of this service is to be determined "by report" because the service is too unusual or variable to be assigned a value. Pertinent information concerning the nature, extent and need for the procedure or service, the time, the skill and equipment necessary, etc., is to be furnished, using any of the following as indicated:

Surgery Ground Rules

- a. Diagnosis (post-operative), pertinent history and physical findings.
 - b. Size, location and number of lesion(s) or procedure(s) where appropriate.
 - c. Major surgical procedure with supplementary procedure(s).
 - d. Whenever possible, list the closest similar procedure by number and value. The "BR" value shall be consistent in value with other values in the schedule.
 - e. Estimated follow-up period, if not listed.
 - f. Operative time.
11. UNLISTED SERVICES OR PROCEDURES: A service or procedure that is not identified by a particular CPT® code should be listed under the appropriate "Unlisted Procedure". These procedures often have "99" as the final two digits. The "Unlisted Procedure" and accompanying code for SURGERY will be found at the end of the relevant section or subsection. Values should be substantiated "by report".
12. CONCURRENT SERVICES BY MORE THAN ONE PHYSICIAN: Charges for concurrent services of two or more physicians may be warranted under the following circumstances:
- a. IDENTIFIABLE MEDICAL SERVICES: Identifiable medical services provided prior to or during the surgical procedure or in the post-operative period are to be charged for by the physician(s) rendering the service(s) identified by the appropriate code and value. Such services are unrelated to the surgeon's fees.
 - b. ASSISTANT SURGEON: Identify surgery performed by CPT number and description of procedure(s). The code(s) must coincide with those of the primary surgeon. Reimbursement will be at twenty percent (20%) of the code allowable.

Assistant surgeon fees are not payable when the hospital provides intern or resident staff to assist at surgery.
 - c. TWO SURGEONS: Under certain circumstances the skills of two surgeons (usually with different skills) may be required in the management of a specific surgical problem. When two surgeons work together as **primary** surgeons performing distinct part(s) of a procedure, each surgeon should report his/her distinct operative work by adding the modifier '-62' to the procedure code and any associated add-on code(s) for that procedure **as long as both surgeons continue to work together as primary surgeons**. Each surgeon should report the co-surgery once using the same procedure code. If additional procedure(s), including add-on procedure(s), are performed during the same surgical session, separate code(s) may also be reported with the modifier '-62' added. Under these circumstances, the total allowable may be increased by twenty-five percent (25%) in lieu of the assistant's charges. By prior agreement, the total allowable for the procedure(s) may be apportioned in relation to the responsibility and work done. **Note:** If a co-surgeon acts as an assistant in the performance of additional procedure(s) during the same surgical session, those services may be reported using separate procedure code(s) with the modifier '-80' or modifier '-82' added, as appropriate.

Surgery Ground Rules

- d. **SURGICAL TEAM:** Under some circumstances highly complex procedures (e.g., open heart or organ transplant surgery) requiring the concomitant services of several physicians, often of different specialties, plus other highly skilled, specially trained personnel and various types of complex equipment are carried out under the "surgical team" concept with a single fee charged for the total service. The services covered vary widely and a single value cannot be assigned. The situations should be identified. The value should be supported by a report to include itemization of the physician services, paramedical personnel and equipment involved.
13. **SURGERY AND FOLLOW-UP CARE PROVIDED BY DIFFERENT PHYSICIANS:** When one physician performs the surgical procedure itself and another provides the follow-up care, the allowable may be apportioned between them by agreement and in accordance with medical ethics. Identify and indicate whether the value is for the procedure or the follow-up care, rather than the whole. The "global fee" is not increased, but pro-rated between the physicians.
14. **PRORATION OF SCHEDULED ALLOWABLE:** When the schedule specifies a maximum allowable reimbursement for a definite treatment with an inclusive period of after-care (follow-up days), and the patient is transferred from one to another physician, the employer or insurance carrier is only responsible for the total amount listed in the schedule, such amount to be apportioned between the physicians. The concerned physicians shall agree upon the amount of proration, and shall render separate bills accordingly.
15. **REPEAT PROCEDURE BY ANOTHER PHYSICIAN:** A basic procedure performed by another physician may have to be repeated. Identify and submit an explanatory note.
16. **DURABLE MEDICAL EQUIPMENT AND SUPPLIES PROVIDED BY PHYSICIAN:** Durable medical equipment and supplies provided by the physician over and above those usually included in a visit to the physician's office or in other services rendered are governed by the Durable Medical Equipment and Supplies Ground Rules.
17. **PHYSICIAN'S ASSISTANT OR REGISTERED NURSE FIRST ASSISTANT, (RNFA) AS ASSISTANT TO SURGEON (in lieu of Assistant Surgeon):** A Physician's Assistant with current certification or RNFA assisting in surgery shall identify surgery performed by CPT number, modifier -81 and description of procedure. The code(s) must coincide with those of the surgeon. Reimbursement will be at ten percent (10%) of the code allowable.
- Physician Assistant or RNFA fees are not payable when qualified hospital staff are provided to assist at surgery. An assistant surgeon, and Physician Assistant or RNFA cannot both be present or their services billed on the same surgical case.
18. **POUND (#) PROCEDURES:** Procedures flagged with a pound (#) sign are valued at their appropriate level and Surgery Ground Rule 5 will not apply.
19. **AMPERSAND (&) PROCEDURES:** Procedures flagged with an ampersand (&) will be valued as follows:

Surgery

Ground Rules

- 64727: 25% of the primary procedure
 - 64778: 25% of the primary procedure
 - 64783 : The lesser of the maximum allowable reimbursement or 25% of the primary procedure
 - 64872: The lesser of the maximum allowable reimbursement or 25% of the primary procedure
 - 64874: The lesser of the maximum allowable reimbursement or 25% of the primary procedure
 - 64876: The lesser of the maximum allowable reimbursement or 25% of the primary procedure
 - 69990: 25% of the primary procedure
20. MEASUREMENTS IN CODED DESCRIPTORS: Measurements listed in coded descriptors are the **original wound(s) or defect(s)** before any treatment is effected. The stated maximum allowable(s) is inclusive of any additional creation of a defect and the necessary preparations for repair merit no additional reimbursement. The depth of a wound is not a factor in the measurements when the descriptor is stated in terms of length or square centimeters or square inches.

Radiology Ground Rules

RADIOLOGY GROUND RULES

General Information and Instructions

1. **PHOTOGRAPHIC MEDIA AND/OR IMAGING:** The use of photographic media and/or imaging is not reported separately but is considered to be a component of the basic procedure, and shall not merit any additional payment.
2. **PROCEDURE CODES:** Listed allowables for radiology procedures apply only when these services are performed by or under the supervision of a physician.
 - a. The five-digit CPT® code is used to identify the total radiology service including the professional services and the technical value of providing that service.
 - b. Modifier -26 is added to the five-digit CPT code to indicate the use of the professional component only. The professional component includes examination of the patient, when indicated, performance and/or supervision of the procedure, interpretation and written report of the examination and consultation with referring physicians.
 - c. Modifier -TC is added to the five-digit CPT code to indicate the use of the technical component only. The technical component includes personnel, materials, space, equipment and other allocated facility overhead normally included in providing the service.
3. **SUPERVISION AND INTERPRETATION ONLY:** A code designated as "Supervision and Interpretation only" is used to indicate radiological services provided by a radiologist and staff, in conjunction with services provided by another physician (i.e., injection, insertion of catheter). In this instance, a physician other than the radiologist should bill using the appropriate procedure code and the radiologist should bill using the appropriate "Supervision and Interpretation only" code. If the radiologist and staff provide both portions of the service, current CPT requires reporting with the Supervision and Interpretation code and the appropriate procedure code.
4. **COMPLETE PROCEDURES:** Procedures designated as a "complete" procedure are used to denote radiological services which are performed by the radiologist and staff only. If other physicians provide some part of the procedure, see Ground Rule 3, above.
5. **UNLISTED SERVICES OR PROCEDURES:** A service or procedure that is not identified by a particular CPT code should be listed under the appropriate "Unlisted Procedure." These procedures often have "99" as the final two digits. Values should be substantiated "by report".
6. **SEPARATE OR INDEPENDENT PROCEDURES:** Certain of the listed procedures are commonly carried out as an integral part of a total service, and as such do not warrant a separate charge. When such a procedure is carried out as a separate procedure not

Radiology Ground Rules

immediately related to other services, the indicated value for "Separate Procedure" is applicable.

7. **BY REPORT ("BR") ITEMS:** "BR" in the PC, TC or MAR column indicates that the value of this service is to be determined "by report". For any "by report" code, medical providers should identify a similar service and justify the difference between their charge and the value of the referenced service. Pertinent information concerning the nature, extent and need for the procedure or service, the time, the skill and equipment necessary, etc. is to be furnished. A detailed clinical record is not necessary.
8. **MULTIPLE SERVICES OTHER THAN DIAGNOSTIC RADIOLOGY:** When multiple or bilateral procedures or services are provided at the same session, the highest valued procedure will be reported as listed. The other procedure(s) will be billed using modifier -50 for bilateral procedure(s) or modifier -51 for multiple procedures. Reimbursement will be made for the highest valued procedure and at fifty percent (50%) of the lesser procedure(s) up to a total maximum allowance of twice the highest valued procedure.
9. **REDUCED VALUE:** If a physician elects to reduce the value of a procedure, modifier -52 should be added to the procedure code. Modifier -52 and the appropriate CPT code may be used to indicate a limited or follow-up CT scan.
10. **SERVICES OR PROCEDURES LISTED IN OTHER SECTIONS:** Services or procedures provided by a radiologist may be listed in an alternate section of this reimbursement schedule (i.e., consultation listed in Evaluation and Management). The radiologist should use these procedure codes following the guidelines appropriate to that section.
11. **NECESSITY OF SERVICES OR PROCEDURES:** When a patient is referred to radiologists or other physicians for services covered in the Radiology Section, they shall evaluate the patient's problem and determine the service(s) or procedure(s) medically necessary. Such evaluations and necessary consultation with the referring physician(s) is an integral part of the professional component allowable and does not merit any additional reimbursement.
12. **REPRODUCTIONS:** When an insurance carrier or self-insured employer requests x-rays, photographs or other images and satisfactory reproductions thereof are furnished in lieu of the original, a fee not to exceed Five Dollars (\$5.00) or the actual cost of reproduction, whichever is less, may be charged. Reproductions are not returnable to the physician. The bill for copying should accompany the reproduction. (The use of photographic media and/or imaging is not reported separately but is considered to be a component of the basic procedure.)

In cases where the patient transfers from one physician to another the former treating physician will promptly forward all x-rays or other photographs and images or copies of such to the new attending physician.

Radiology Ground Rules

13. DURABLE MEDICAL EQUIPMENT AND SUPPLIES PROVIDED BY PHYSICIAN: Durable medical equipment and supplies provided by the physician over and above those usually included in a visit to the physician's office or in other services rendered are governed by the Durable Medical Equipment Ground Rules. (Listed values in this Radiology section do not include radiopharmaceutical or other radionuclide material costs.)

Pathology Ground Rules

PATHOLOGY GROUND RULES

General Information and Instructions

1. **COVERED SERVICES:** Services or procedures under this section must be performed by a registered/licensed pathologist or laboratory. Allowables in this section include recording of the specimen, performance of the test, and reporting of the result.
2. **CHARGE FOR OBTAINING AND HANDLING SPECIMEN:** The attending physician may charge twenty percent (20%) of the code allowable, not to exceed Ten Dollars (\$10.00), for obtaining and handling a specimen. Billing should be identified by using procedure code 99000.
3. **DURABLE MEDICAL EQUIPMENT AND SUPPLIES PROVIDED BY PHYSICIAN:** Durable medical equipment and supplies provided by the physician over and above those usually included in a visit to the physician's office or in other services rendered are governed by the Durable Medical Equipment and Supplies Ground Rules.
4. **PROCEDURE CODES:** The five-digit CPT® code is used to represent both the professional and technical components.

Modifier -26 is added to the five-digit CPT code to indicate the use of the professional component only. The professional component includes examination of the patient, when indicated, performance and/or supervision of the procedure or lab test, interpretation and/or written report concerning the examination or lab test and consultation with referring physicians. It does not include the cost of personnel, materials, space, equipment or other facilities.

Modifier -TC is added to the five-digit CPT code to indicate the use of the technical component only. The technical component includes the charges for personnel, materials, space, equipment and other facilities.

5. **REPORT OF FINDINGS:** No bill for services or procedures included in this section shall be considered properly rendered unless it is accompanied by a report that includes the findings and the interpretation of such findings.
6. **SERVICES OR PROCEDURES LISTED IN OTHER SECTIONS:** For the values of services common to all physicians, see the appropriate section of the schedule. Particular reference should be made to the Introduction and Ground Rules preceding the Medicine Section.
7. **BY REPORT ("BR") ITEMS:** "BR" in the PC, TC or MAR column indicates that the value of this service is to be determined "by report". For any "by report" code, medical providers should identify a similar service and justify the difference between their charge and the value of the referenced service. Pertinent information concerning the nature, extent and need for the procedure or service, the time, the skill and equipment necessary, etc. is to be furnished. A detailed clinical record is not necessary.

Pathology

Ground Rules

8. INDICES OR RATIOS: Tests which produce an index or ratio based on mathematical calculations from two or more other results may not be billed as a separate independent test, e.g., A/G ratio, free thyroxin index.
9. UNLISTED SERVICES OR PROCEDURES: A service or procedure that is not identified by a particular CPT code should be listed under the appropriate "Unlisted Procedure." These procedures often have "99" as the final two digits. Values should be substantiated "by report".
10. EXCESSIVE OR UNNECESSARY PROCEDURES: Payment may be denied for procedures determined to be excessive or unnecessary for the management of the work related injury(ies) or disease(s).

Medicine Ground Rules

MEDICINE GROUND RULES

General Information and Instructions

1. GENERAL: The allowables in this section apply only when these services are performed by or under the responsible and direct supervision of a physician unless otherwise stated.
2. UNLISTED SERVICES OR PROCEDURES: A service or procedure that is not identified by a particular CPT® code should be listed under the appropriate "Unlisted Procedure." These procedures often have "99" as the final two digits. Values should be substantiated "by report".
3. BY REPORT ("BR") ITEMS: "BR" in the allowable column indicates that the value of this service is to be determined "by report", because the service is too unusual or variable to be assigned a value. For any "by report" code, medical providers should identify a similar service and justify the difference between their charge and the value of the referenced service. Pertinent information concerning the nature, extent and need for the procedure or service, the time, the skill and equipment necessary, etc. is to be furnished. A detailed clinical record is not necessary.
4. DURABLE MEDICAL EQUIPMENT AND SUPPLIES PROVIDED BY PHYSICIAN: Durable medical equipment and supplies provided by the physician over and above those usually included in a visit to the physician's office or in other services rendered are governed by the Durable Medical Equipment and Supplies Ground Rules.
5. SEPARATE PROCEDURES: Certain of the listed procedures are commonly carried out as an integral part of a total service, and as such do not warrant a separate charge. For example: multiple muscle strains, such as cervical and lumbar areas, extremity, etc., when treated by other than a specific descriptor listed in the Surgery Section will be considered as an entity and not carry cumulative and/or additional charges. When such a procedure is carried out as a separate entity not immediately related to other services, the indicated allowable for "Separate Procedure" is applicable.
6. PRORATION OF SCHEDULED ALLOWABLE: When the schedule specifies an allowable for a definite treatment and period of after care, and the patient is transferred from one physician to another, the employer or insurance carrier is responsible for the amount stated in the schedule. The concerned physicians shall agree upon the amount of proration and shall render separate bills accordingly.
7. PROCEDURE CODES: The five-digit CPT code is used to represent both the professional and technical components. **If no allowable is noted in the PC column, the MAR listed is for the professional component only and there is no technical component for the code.**

Modifier -26 is added to the five-digit CPT code to indicate the use of the professional component only. The professional component includes examination of the patient, when indicated, performance and/or supervision of the procedure, interpretation and written report

Medicine

Ground Rules

concerning the examination and consultation with referring physicians. It does not include the cost of personnel, materials, space, equipment or other facilities.

Modifier -TC is added to the five-digit CPT code to indicate the use of the technical component only. The allowable for the TC is the difference between the MAR and the PC allowable. As stated above, if no allowable is noted in the PC column, the MAR listed is for the professional component only and there is no technical component for the code. The technical component includes the charges for personnel, materials, space, equipment and other facilities.

8. NARRATIVE REPORTS requested by the insurance carrier or self-insured employer involving the review of medical data to clarify a patient's status should be billed using code 99080. Maximum reimbursement will be as follows:

First page	\$36.43
Each additional page	\$14.57
Not to exceed	\$72.84

9. WORKERS' COMPENSATION COURT FORM 4 (TREATING PHYSICIAN'S REPORT AND NOTICE OF TREATMENT) should be billed using "FORM 4". Maximum reimbursement will be \$7.92.
10. IMMUNE GLOBULIN AND VACCINES/TOXOIDS: Codes 90281-90399 identify the immune globulin product only and must be reported in addition to the administration codes 90765-90768, 90772, 90774, 90775, as appropriate. Codes 90465-90474 must be reported in addition to the vaccine and toxoid code(s) 90476-90749. Codes 90476-90748 identify the vaccine/toxoid product only. To report the administration of a vaccine/toxoid, the vaccine/toxoid product codes 90476-90479 must be used in addition to the immunization administration code(s) 90465-90474.
11. MISCELLANEOUS: Listings and allowables for other diagnostic therapeutics, evaluation and management, surgical, anesthetic, x-ray and laboratory procedures may be found within the sections entitled "Evaluation and Management", "Surgery", "Anesthesia", "Radiology" and "Pathology".

When reporting services in which the allowable is predicated on the basis of time, information concerning the amount of time spent must be indicated.

Physical Medicine Ground Rules

PHYSICAL MEDICINE GROUND RULES

General Information and Instructions

1. COVERED SERVICES: The allowables in this section apply only when a physician determines the services are medically warranted and the services are performed by one or a combination of the following health care providers as authorized by law for the provider's professional license:
 - a. A physician;
 - b. A licensed physical therapist;
 - c. A licensed physical therapist assistant under the direct clinical on-site supervision of a licensed physical therapist or under the general supervision of a licensed physical therapist, as provided in the rules of the State Board of Medical Licensure and Supervision;
 - d. A licensed occupational therapist; and/or
 - e. A licensed occupational therapy assistant under the general supervision of a licensed occupational therapist, as provided in the rules of the State Board of Medical Licensure and Supervision.

provided, supervised modalities under CPT® codes 97010 through 97028 may be performed as authorized in the CPT book.

2. VISIT LIMITATIONS: **If medically warranted**, physical medicine treatments may be provided over the course of one or more visits, subject to the following:
 - a. If treatment consists only of modalities under CPT codes 97010 through 97039, not more than four (4) visits is allowable unless prior authorization is obtained from the payor; and
 - b. Treatment beyond eighteen (18) visits, **in the aggregate**, must be authorized. All care beyond eighteen visits in the aggregate shall require a specific treatment plan as provided in Ground Rule 4 of these ground rules.

For purposes of this Ground Rule, a "visit" occurs whenever the patient presents for and receives treatment. A patient's return on the same day for additional treatment which is provided constitutes a separate visit.

3. TREATMENT LIMITATIONS: Visits are subject to the following treatment limitations:
 - a. No more than one manipulation per day is allowable, **except** on the initial and next two consecutive visits. If additional manipulations are performed on the initial and/or next two consecutive visits, the attending doctor must submit a detailed report to the insurance carrier or employer regarding the need for such additional manipulations; and

Physical Medicine Ground Rules

- b. For injury resulting in treatment to one body region, any combination of four (4) physical medicine codes is allowable per day. For injury resulting in treatment to more than one body region, any combination of six (6) physical medicine codes is allowable per day. (An injury resulting in treatment to more than one body region must be substantiated by the appropriate diagnosis codes.) For purposes of this Ground Rule, each application of the same physical medicine code on the same day constitutes a separate code; and
 - c. No more than four (4) modalities, (CPT codes 97010-97039) is allowable per day.
4. TREATMENT PLAN:
 - a. A patient's medical record must include a treatment plan. The treatment plan must include the patient's diagnosis, recommended treatment frequency, modalities and procedures to be used, active and passive care treatment recommendations, and both long term and short term goals with a measurable expected response (e.g., range of motion improved by fifty percent (50%), reduction in pain by seventy-five percent (75%), and full return to work within a specific number of weeks).
 - b. If treatment is provided beyond eighteen (18) visits in the aggregate, the treatment plan must specifically identify the reason suspected for the patient's non-response to prior treatment, identify any changes in the treatment plan, and include a demonstrated change in treatment with active care components and appropriate second opinion specialist referrals by the treating physician.
 - c. Treatment plans must be made available upon request.
 - d. No fee for preparation of the treatment plan is allowable.
5. OFFICE VISITS: If an evaluation and management assessment is medically necessary, a physician may charge and be reimbursed for an office visit at the initial visit, after an interim corrective treatment, and at the final evaluation. This ground rule does not permit reimbursement for an office visit each time the patient presents for and receives treatment.
6. BY REPORT ("BR") ITEMS: "BR" in the maximum allowable reimbursement (MAR) column indicates that the value of this service is to be determined "by report", because the service is too unusual or variable to be assigned a value. For any "by report" code, medical providers should identify a similar service and justify the difference between their charge and the value of the referenced service. Pertinent information concerning the nature, extent and need for the procedure or service, the time, the skill and equipment necessary, etc. must be furnished. A detailed clinical record is not necessary.
7. UNLISTED SERVICES OR PROCEDURES: A service or procedure that is not identified by a particular CPT code should be listed under the appropriate "Unlisted Procedure." These procedures often have "99" as the final two digits. Values should be substantiated "by report".

Physical Medicine Ground Rules

8. PHYSICAL THERAPY SERVICES:

- a. All physician referrals of a patient to a physical therapist for treatment must be in writing.
- b. Reimbursement and Billing:
 - (1) Physical therapists employed by others (i.e. not self-employed) may not bill separately from the employer.
 - (2) When a physical therapist renders physical therapy during after-care periods for fractures, dislocations or other post-operative procedures, charges for such therapy shall be in addition to those of the referring physician or of the physician for the after-care period.
 - (3) When a physical therapist renders treatment in a patient's home, add fifty percent (50%) to the listed allowable to determine the maximum allowable reimbursement amount. Mileage and the time it takes the physical therapist to travel to and from the patient's home and to complete any required documentation of the services provided shall not be reimbursed separately. An explanation justifying the need for home therapy rather than therapy in an office or out-patient setting must be submitted with the bill.
 - (4) A licensed physical therapist may charge and be reimbursed for an initial evaluation and not more than two re-evaluations using codes 97001 and 97002, as appropriate. These codes are in addition to other codes allowed on the initial evaluation or re-evaluation of a patient.
 - (5) All physical therapists and physical therapist assistants must include their professional license number on all bills submitted for payment.

9. OCCUPATIONAL THERAPY SERVICES:

- a. All physician referrals of a patient to an occupational therapist for treatment must be in writing.
- b. Reimbursement and Billing
 - (1) Occupational therapists employed by others (i.e. not self-employed) may not bill separately from the employer.
 - (2) When an occupational therapist renders occupational therapy during after-care periods for fractures, dislocations or other post-operative procedures, charges for such therapy shall be in addition to those of the referring physician or of the physician for the after-care period.

Physical Medicine Ground Rules

- (3) When an occupational therapist renders treatment in a patient's home, add fifty percent (50%) to the listed allowable to determine the maximum allowable reimbursement amount. Mileage and the time it takes the occupational therapist to travel to and from the patient's home and to complete any required documentation of the services provided shall not be reimbursed separately. An explanation justifying the need for home therapy rather than therapy in an office or out-patient setting must be submitted with the bill.
 - (4) A licensed occupational therapist may charge and be reimbursed for an initial evaluation and not more than two re-evaluations using codes 97003 and 97004, as appropriate. These codes are in addition to other codes allowed on the initial evaluation or re-evaluation of a patient.
 - (5) All occupational therapists and occupational therapy assistants must include their professional license number on all bills submitted for payment.
10. DURABLE MEDICAL EQUIPMENT AND SUPPLIES: Durable medical equipment and durable medical supplies used in the provision of physical medicine services are subject to different rules of reimbursement. Durable medical equipment provided by the health care provider over and beyond those usually included in a visit to the provider's office or in other services rendered are governed by the Durable Medical Equipment and Supplies Ground Rules. However, durable medical supplies used in the provision of physical medicine services shall not be reimbursed separately since the maximum allowable reimbursement (MAR) for the physical medicine codes includes the supply of materials.

Durable Medical Equipment and Supplies Ground Rules

DURABLE MEDICAL EQUIPMENT AND SUPPLIES GROUND RULES

General Information and Instructions

1. **CODING AND REIMBURSEMENT OF DURABLE MEDICAL EQUIPMENT AND SUPPLIES:** The Oklahoma Workers' Compensation Court adopts by reference the Centers for Medicare and Medicaid Services, CMS Common Procedures Coding System (HCPCS) for the coding of durable medical equipment and supplies. The maximum allowable reimbursement for durable medical equipment and supplies provided or administered to a patient shall be the lesser of the provider's usual and customary charge or the corresponding Oklahoma allowable, in effect on the date of rental or purchase, as reflected in the Durable Medical Equipment, Prosthetics, Orthotics, and Supplies (DMEPOS) Fee Schedule, published by the Centers for Medicare and Medicaid Services. The Centers for Medicare and Medicaid Services Fee Schedule can be accessed via the Internet at <http://www.cms.hhs.gov/DMEPOSFeeSched/>. It also is available for purchase from the Records Department of the Workers' Compensation Court, 1915 N. Stiles, Oklahoma City, OK 73105, (405) 522-8640 or in-state toll free at (800) 522-8210.
2. **COVERED SERVICES:** A payor shall reimburse for the purchase or rental of durable medical equipment and supplies that are medically warranted and substantiated by a written prescription or order. This section does not apply to durable medical equipment and supplies provided or administered in an in-patient hospital or ambulatory surgical center setting. This section also does not apply to CPT® codes 90281 through 90399, 90476 through 90749, 95120 through 95134, and 95144 through 95170, since the maximum allowable reimbursement (MAR) for each of these codes includes the supply of materials.
3. **PRIOR AUTHORIZATION FOR RENT/PURCHASE:** Prior authorization by the employer or its insurer is required on whether to rent or purchase an item. The decision to rent or purchase shall be made within a reasonable time by the employer, an authorized representative, or the insurer, based on a cost comparison of the monthly rental fee, the prescribing health care provider's estimate of how long the item will be needed, and the purchase price.
4. **LISTED AND UNLISTED ITEMS:** A provider of health care shall indicate on a bill presented to an insurer each code contained in HCPCS for durable medical equipment and supplies provided or administered to the patient. Use the miscellaneous HCPCS code, E1399 when no other HCPCS code is present for the durable medical equipment or supplies provided to the injured worker. When using E1399, a detailed description of the unlisted equipment/supply and documentation supporting the provider's charge is required. Reimbursement under the miscellaneous HCPCS Code E1399 shall not exceed the cost of the item(s) to the provider plus a twenty-five percent (25%) mark-up. The mark-up shall not exceed Fifteen Dollars (\$15.00) for a single item.
5. **ORTHOTICS AND PROSTHETICS:** The primary coding system to be used in the billing for orthotics/prosthetics services is the HCPCS system. CPT codes shall be used only when the service rendered does not fit the descriptions/codes provided in the HCPCS system.

Durable Medical Equipment and Supplies Ground Rules

6. TAX, FREIGHT AND HANDLING: Tax, and storage, shipping, handling, etc. are not reimbursable costs for durable medical equipment or supplies.

Pharmaceutical Services Ground Rules

PHARMACEUTICAL SERVICES GROUND RULES

General Information and Instructions

1. DEFINITIONS: The following words and terms, when used in the Pharmaceutical Services Ground Rules, have the following meanings, unless the context clearly indicates otherwise:
 - a. Nonprescription Drug or Over-the-Counter Medication (OTC) - A non-narcotic drug that may be sold without a prescription and which is prepackaged for use by the consumer and labeled in compliance with state or federal law.
 - b. Open Formulary - Includes all available Food and Drug Administration (FDA) approved prescription and nonprescription drugs, but does not include drugs that lack FDA approval, or non-drug items.
 - c. Prescribing Practitioner - A licensed practitioner of allopathic or osteopathic medicine, including physician assistants under the supervision of a licensed physician, dentistry, optometry certified by the Board of Examiners in Optometry, or podiatry who prescribes prescription drugs or over-the-counter medications in accordance with the practitioner's professional license and state and federal laws and rules.
 - d. Prescription - An order from a prescribing practitioner for a prescription or nonprescription drug to be filled, compounded, or dispensed by a pharmacist.
 - e. Prescription Drug -
 - (1) A substance for which federal or state law requires a prescription before the substance may be legally dispensed to the public; or
 - (2) A drug which, under federal law, is required, before being dispensed or delivered, to be labeled with the statement, "Caution: Federal law prohibits dispensing without a prescription."
 - f. Average Wholesale Price (AWP) - Per Title 85 O.S., Section 14, "average wholesale price" means the amount determined from the latest publication of the blue book, a universally subscribed pharmacist reference guide annually published by the Hearst Corporation. AWP may also be derived electronically from the drug pricing database synonymous with the latest publication of the blue book and furnished in the National Drug Data File (NDDF) by First Data Bank (FDB), a service of the Hearst Corporation. (1-800-633-3453, ext.874)
2. DRUG FORMULARY: There is hereby adopted an open formulary as defined in Ground Rule 1(b) of these ground rules. The payor shall pay for drugs that are reasonable and medically necessary to treat the compensable injury or occupational disease including prescriptions for off label indications when used in accordance with current medical

Pharmaceutical Services Ground Rules

standards and prescribed in compliance with published contraindications, precautions and warnings. Over-the-counter medications with a prescription filled by a pharmacist shall be reimbursed in accordance with Ground Rule 4(c) of these ground rules.

3. PHARMACEUTICAL SERVICES - PRESCRIPTIONS:

- a. A doctor providing care to an injured employee shall prescribe for the employee medically necessary prescription drugs and over-the-counter medication (OTC) alternatives as clinically appropriate and applicable in accordance with applicable state law and as provided in these ground rules.
- b. When prescribing an OTC medication alternative to a prescription drug, the prescribing practitioner is encouraged to indicate on the prescription the appropriate strength of the medication and the approximate quantity of the OTC medication that is reasonably required by the nature of the compensable injury or occupational disease.
- c. Physicians shall prescribe and pharmacies shall dispense generic equivalent drugs when available.
- d. The prescribing practitioner shall prescribe OTC medications in lieu of a prescription drug when clinically appropriate.
- e. When prescribing, the prescribing practitioner shall choose medications and drugs from the formulary adopted in Ground Rule 2 of these ground rules.

4. REIMBURSEMENT METHODOLOGY:

- a. **PRESCRIPTION DRUGS:** The maximum allowable reimbursement (MAR) for prescription drugs dispensed by a pharmacy for a compensable work-related injury or occupational disease shall be the lesser of:
 - (1) The pharmacy's usual and customary charge for the same or similar service;
or
 - (2) ninety percent (90%) of the average wholesale price of the prescription, plus a dispensing fee of Five Dollars (\$5.00) per prescription.
- b. **PRESCRIPTION FOR GENERIC OR NON-BRAND-NAME DRUGS:** When the prescribing practitioner has written a prescription for a generic prescription drug or a prescription that does not require the use of a brand-name drug, as provided in Ground Rule 3(c) of these ground rules, the pharmacist shall dispense and be reimbursed for the generic pharmaceutical medication.

Pharmaceutical Services Ground Rules

- c. **OVER-THE-COUNTER MEDICATIONS:** When the prescribing practitioner's prescription for an over-the-counter medication includes the appropriate strength of the medication and the approximate quantity of the OTC medication that is reasonably required by the nature of the compensable injury or occupational disease, reimbursement for the over-the-counter medication shall be the retail price of the lowest package quantity reasonably available that will fill the prescription.
 - d. **SCOPE OF THIS GROUND RULE:** This ground rule applies to the dispensing of all drugs except in-patient drugs, ambulatory surgical center drugs and parenteral drugs.
5. **BILLING:** The date the item was dispensed, the metric quantity of the item dispensed, the National Drug Code number of the item dispensed, and the usual and customary charge of the pharmacy for the medication or drugs must be included on each billing.
6. **AUTHORIZED PRESCRIPTION NECESSARY:** Any medication or drugs not specifically prescribed by a health care provider shall not be reimbursed.

Pharmaceutical Services Ground Rules

This page intentionally left blank.

Ambulatory Surgical Center Services Ground Rules

AMBULATORY SURGICAL CENTER SERVICES GROUND RULES

General Information and Instructions

1. DEFINITIONS: For purposes of this section,
 - a. "Ambulatory surgical center" means an establishment with an organized medical staff of physicians, with permanent facilities that are equipped and operated primarily for the purpose of performing surgical procedures, with continuous physician services available on call, and registered professional nurse services on site, whenever a patient is in the facility, which provides services or other accommodations for patients to recover for a period not to exceed twenty-three (23) hours after surgery. The term "ambulatory surgical center" includes an outpatient surgery facility.
 - b. "Audited charges" means those charges which remain after deducting charges for services which are not documented as rendered during the admission and charges for items and services which are not related to the compensable injury or occupational disease. The formula to obtain audited charges is as follows: Total Charges - Deducted Charges = Audited Charges. The payor may have the bill audited at its own expense.
 - c. "Implantables" means those services indicated by revenue codes 274 (prosthetic/orthotic devices), 275 (pace maker), 276 (intraocular lens), and 278 (other implants), which involve an item or device intended for permanent placement in the body. "Implantable items" include rods, pins, screws, plates, prosthetic joint replacements, and other items properly indicated by revenue code 278 which are made of plastic, metallic, or of autogenous/non-autogenous graft material.
2. FEES: Fees charged by an ambulatory surgical center shall not include any professional component fees. Such fees are considered for payment according to separately billed Current Procedural Terminology (CPT®) code allowables.
3. BILLING: Billing for ambulatory surgical services shall reference appropriate coding, state the actual charges billed, and, if applicable, include an invoice for implantables as provided in Ground Rule 5 of these ground rules. An ambulatory surgical center shall not knowingly charge a payor more for treatment under workers' compensation than that normally charged for similar treatment outside the workers' compensation system.
4. COMPUTATION OF MAXIMUM ALLOWABLE REIMBURSEMENT: Except as authorized in Ground Rule 5 of these ground rules, reimbursement for medically warranted ambulatory surgical center services provided for a compensable work-related injury or occupational disease shall be limited to the lesser of:
 - a. the ambulatory surgical center's usual and customary charge, or

Ambulatory Surgical Center Services Ground Rules

- b. sixty percent (60%) of the sum of all ambulatory surgical center audited charges, excluding charges for implantables since implantables are reimbursed separately under Ground Rule 5 of these ground rules, or
 - c. the maximum reimbursement allowed under the In-Patient Hospital Services Ground Rules for the same or substantially similar services provided in an in-patient hospital setting.
5. **IMPLANTABLES:** Ambulatory surgical centers shall be separately reimbursed for medically necessary implantables. The maximum allowable reimbursement for the implantables shall be computed as follows:

[Cost of the implantable to the ambulatory surgical center, net of discounts and rebates, less five percent (5%)] plus [ten percent (10%)]. Tax, freight and handling are not reimbursable costs for the implantable.

An invoice for the actual cost to the ambulatory surgical center of an implantable device shall be adjusted by the surgical center to reflect all applicable discounts, rebates, considerations and product replacement programs and must be provided to the payor by the surgery center as a condition of payment for the implantable device. The invoice must accompany the ambulatory surgical center's bill for the implantable. The invoice is subject to applicable health privacy laws, rules and regulations.

6. **PAYMENT DISPUTES:** Nothing in these ground rules shall be construed to preclude a payor from challenging a provider's charges.

In-Patient Hospital Services

IN-PATIENT HOSPITAL SERVICES GROUND RULES

General Information and Instructions

1. DEFINITIONS: For purposes of this Schedule of Hospital Fees,
 - a. "Audited charges" means those charges which remain after deducting charges for services which are not documented as rendered during the admission and charges for items and services which are not related to the compensable injury or occupational disease. The formula to obtain audited charges is as follows: Total Charges - Deducted Charges = Audited Charges. The payor may have the bill audited at its own expense.
 - b. "Implantables" means those services indicated by revenue codes 274 (prosthetic/orthotic devices), 275 (pace maker), 276 (intraocular lens), and 278 (other implants), which involve an item or device intended for permanent placement in the body. "Implantable items" include rods, pins, screws, plates, prosthetic joint replacements, and other items properly indicated by revenue code 278 which are made of plastic, metallic, or of autogenous/non-autogenous graft material.
 - c. "In-patient" means being confined to a hospital setting for twenty-four (24) hours or more. An in-patient stay does not require official admission to the hospital.
2. REIMBURSEMENT AND BILLING: Except as otherwise provided in Ground Rules 4 and 5 of these ground rules, reimbursement for in-patient hospital services shall be limited to the maximum allowable reimbursement per in-patient stay as computed in Ground Rule 3 of these ground rules, or the hospital's usual and customary charge, whichever is less. Billing for in-patient hospital services shall reference the MS-DRG code, state the actual charges billed, and, if applicable, include an invoice for implantables as provided in Ground Rule 4 of these ground rules. A hospital shall not knowingly charge a payor more for treatment under workers' compensation than that normally charged for similar treatment outside the workers' compensation system.
3. COMPUTATION OF MAXIMUM ALLOWABLE REIMBURSEMENT: The maximum allowable reimbursement per in-patient stay shall be computed as follows:
$$\text{MAXIMUM ALLOWABLE REIMBURSEMENT} = \text{Medicare MS-DRG Relative Weight} \times \$4,000.00.$$
4. IMPLANTABLES: Generally, durable medical equipment and supplies provided or administered in an in-patient hospital setting are not separately reimbursed since they are included in the Medical Severity Diagnosis Related Groups (MS-DRG) payment rate. However, surgical implantables as defined in Rule 1 of these Ground Rules which are medically necessary are excepted from this rule. Accordingly, in-patient hospitals shall be separately reimbursed for medically necessary implantables. The maximum allowable reimbursement for the implantables shall be computed as follows:

In-Patient Hospital Services

[Cost of the implantable to the hospital, net of discounts and rebates, less five percent (5%)] plus [ten percent (10%)]. Tax, freight and handling are not reimbursable costs for the implantable.

An invoice for the actual cost to the hospital of an implantable device shall be adjusted by the hospital to reflect all applicable discounts, rebates, considerations and product replacement programs and must be provided to the payor by the hospital as a condition of payment for the implantable. The invoice must accompany the hospital's bill for the implantable. The invoice is subject to applicable health privacy laws, rules and regulations.

5. STOP-LOSS METHOD:

- a. PURPOSE AND APPLICATION: Stop-loss is an independent reimbursement methodology that will reimburse the hospital for unusually costly services rendered during treatment to an injured worker. No charge attributable to implantables shall be considered for purposes of determining eligibility for, and reimbursement under, stop-loss.
- b. COMPUTATION OF THE MAXIMUM ALLOWABLE REIMBURSEMENT UNDER STOP-LOSS: To be eligible for the stop-loss payment, the total audited charges for the hospital in-patient stay, excluding charges attributable to implantables, must be at least Seventy Thousand Dollars (\$70,000.00), the minimum stop-loss threshold. If the total audited charges for the hospital in-patient stay equal or exceed the minimum stop-loss threshold, the total audited charges are then multiplied by seventy percent (70%) to determine the maximum allowable reimbursement. For purposes of this calculation, "audited charges" do not include any charges for implantables since implantables are reimbursed separately under Ground Rule 4 of these ground rules.

6. PAYMENT DISPUTES: Nothing in these ground rules shall be construed to preclude a payor from challenging a provider's charges.
